

Specialty Mounting Adapters

MH144-1A

Triaxial Mounting Block with five 1/4-28 Mounting Holes & one 1/4-28 captive bolt

Stock Product

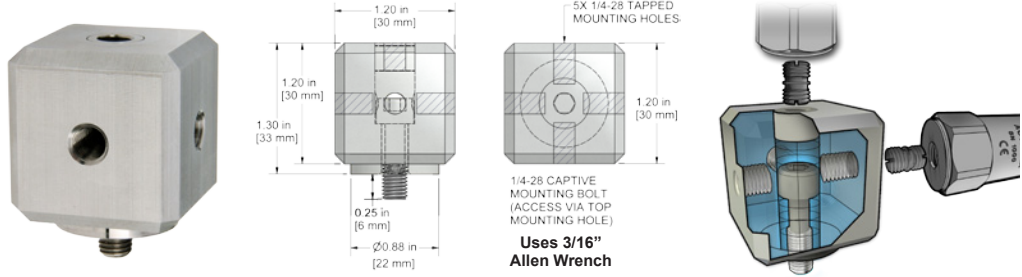

MH144-2A

Triaxial Mounting Block with five 1/4-28 Mounting Holes & one M6 captive bolt

Stock Product

Product Purpose

Convert Measurement Point into Triaxial Measurement Point
This low cost option allows you to position the block however you choose and then mount with only one bolt.

MH134 Series

Product Purpose

Sensors Can Be Mounted Directly into a Grease Fitting Location
If you have a restriction or obstruction to the preferred measurement location (end bell, fan guard, etc.) that has a grease fitting, you can save installation time by mounting an accelerometer on the adapter and grease the bearing.

(MH134-1A shown)

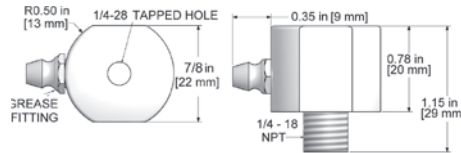

Features

- 17-4 Stainless steel case material
- Magnet mount or permanent mount
- Zerk fitting included

MH134-1A

Zerk adapter mounting pad for accelerometers, 1/4" NPT mounting thread

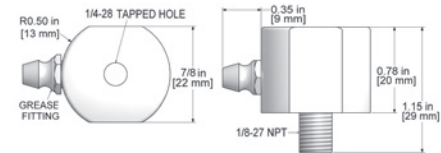

Stock Product

MH134-2A

Zerk adapter mounting pad for accelerometers, 1/8" NPT mounting thread

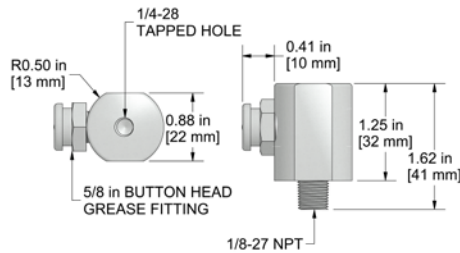

Stock Product

MH145-1B

Button head grease fitting adapter 1/8-27 NPT mounting thread

Stock Product

MH108-14B

1/2" NPT to 1/4-28 adapter stud

Stock Product

MH108-16B

1/4" NPT to 1/4-28 adapter stud

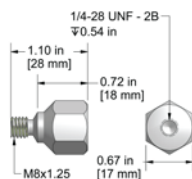

Stock Product

MH143-1A

Hex head mounting stud for accelerometers, SPM compatible, 28 mm

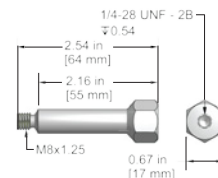

Stock Product

MH143-2A

Hex head mounting stud for accelerometers, SPM compatible, 64 mm
