Test & Inspection Technician

Our company is seeking a skilled Test & Inspection Technician to join our team. As an integral part of our final inspection team, you will be responsible for conducting thorough testing and inspections of our products to ensure they meet our quality standards and specifications. This role offers an exciting opportunity to work in a fast-paced environment, collaborate with cross-functional teams, and contribute to the continuous improvement of our quality assurance processes. If you have a strong eye for detail, excellent problem-solving skills, and a dedication to excellence, we invite you to apply and become an essential part of our team.

About the Company

Connection Technology Center (CTC) is the global leader in the design & manufacture of cutting-edge vibration analysis hardware for machine condition monitoring. As a family-owned & operated business for 30 years, we are proud to play a crucial role in preventing operational disruptions, financial losses, and safety concerns for heavy industry. From small scale manufacturing to Fortune 500 companies in Paper & Pulp, Auto & Steel, Food & Beverage, Pharmaceutical, Mining and many more, our mission is to create products that help ensure seamless operational uptime and contribute to a safer, more efficient manufacturing future.

Main Responsibilities

Testing:

- Execute testing procedures on finished products according to established work instructions.
- Utilize testing equipment and tools to assess the functionality, performance, and compliance of products with specified requirements.
- Record and document test results accurately for further analysis and quality assurance purposes.

Inspection:

- Conduct detailed inspections of finished products to ensure they meet the quality standards outlined in work instructions.
- Verify product specifications, dimensions, and visual attributes to maintain consistent product quality.
- Identify and document any deviations from established quality standards.

Packaging:

- Package products in accordance with packaging instructions provided, ensuring that the packaging meets both functional and aesthetic requirements.
- Maintain cleanliness and organization of the packaging area to prevent damage to products during the packaging process.

Defect Reporting:

- Immediately report any known product or material defects to the production supervisor.
- Collaborate with the production team to address and rectify identified defects promptly.

Documentation:

- Maintain accurate and detailed records of testing and inspection results.
- Prepare reports summarizing findings and communicating any trends or recurring issues to the quality control team.

Requirements

- High school diploma or equivalent required; additional technical certifications in quality control or a related field is a plus.
- Proven experience as a Test & Inspection Technician or similar role in a manufacturing environment.

Knowledge, Skills, and Abilities

- Familiarity with testing equipment and tools relevant to the industry.
- Strong attention to detail and ability to follow established work instructions precisely.
- Excellent communication skills, both written and verbal.
- Ability to work collaboratively with cross-functional teams to address quality concerns.
- Basic computer skills for record-keeping and reporting purposes.
- Ability to analyze test results and inspection findings to draw accurate conclusions about product quality.

Work Location

This in-person position will work out of the Victor, NY facility.

Salary Range:

$22 - $25 per hour

Benefits

- Health Insurance
- Dental Insurance
- Vacation Time
- Sick Leave
- 401K plan with Employer Match
- Summer golf membership to Bristol Harbour Private Golf Course
