

# FCC INFORMATION

Connection Technology Center is committed to ensuring that all wireless products meet the regulatory requirements established by the Federal Communications Commission (FCC). As part of this commitment, the products listed below have been tested, evaluated, and accepted under their respective FCC IDs.

This document provides a customer-facing summary of the FCC information associated with these products.

## PRODUCTS

### **WS100 Series**

**FCC ID: 2BKLG-WSCONNECT**

*ConnectSens™ Wireless Triaxial Overall Vibration Signal Sensor with Temperature Output, 2,100 ft. (640 m) Line-of-Sight Range*

### **WS200 Series**

**FCC ID: 2BKLG-WSCONNECT**

*ConnectSens™ Wireless Sensor with Single-Axis Dynamic Vibration Signal Capture with Temperature Output, 1,200 ft. (366 m) Line-of-Sight Range*

### **WS300 Series**

**FCC ID: 2BKLG-WSCONNECT**

*ConnectSens™ Wireless Sensor with Triaxial Dynamic Vibration Signal Capture with Temperature Output, 1,200 ft. (366 m) Line-of-Sight Range*

### **ACCESS360 Series**

**FCC ID: 2BKLG-ACCESS360**

*ConnectBridge™ Wireless Gateway and Network Controller, Preloaded with ConnectView™ Web App*

Any changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

For detailed test reports and grant information, the FCC Equipment Authorization database (<https://apps.fcc.gov/oetcf/eas/reports/GenericSearch.cfm>) may be referenced using the FCC IDs listed above.
